**Subject:** (EXTERNAL SOURCE) No Parking Sign - Westwood Cres

Hello,

I'm emailing in regards to the new "No Parking" signs that have been placed on the right side of the street, along Westwood Crescent this past week. I'm wondering if you can look into this and review the decision.

For the last countless number of years, we have been able to park on this street (in front of our house) with no issues, as have many of our neighbours. We do rely on this due to the fact that my partner has a large work van he needs to park, and no room in our driveway. We also have a neighbour adjacent to us, who does the same. There are many other neighbours up the street, one including someone who drives a short bus - needing the road to park it. There have been no issues with all of us doing this in the past, and we would greatly appreciate having this decision reviewed. This is a straight street, no curves or courts.

We totally understand that during the winter there would be certain times where the roads would need to be clear, for snow removal. Which we would happily adhere to - however my partners work vehicle is gone from 6am to 4pm and needs somewhere to sit overnight.

Being a residential street, with homeowners who have work vehicles or other vehicles that need parking spots - I feel like it would be in the best interest (and the majority interest) to remove these signs from the street and our front lawn. I know that we are not the only ones feeling this way.

Thank you for your consideration,  
Lindsay Nickerson
