

**IDEAS for SCCAC's 2021 Priority Initiatives:** "All SCCAC Committee members will send their ideas as to priority initiatives for the SCCAC in 2021 to Krystal and Minnie by Friday, Jan 22, 2021."

**Community Outreach:**

- Brainstorm, document and launch programs that increase citizens' priority & urgency re. the CCE, and incent and recognize their participation.
- 

**Greener Development Standards:**

- Lead & do the Costs/Benefits analysis to justify Council requiring or incentivizing significantly Greener building standards than Provincial minimums.
  - With the same analysis, lobby the Province to implement Greener development codes/standards.
- 

**Council:**

- Provide Council with an ICSP Costs/Benefits analysis that justifies more urgency & more action.
  - Justify to Council that pandemic delay & distraction makes all CCE actions more urgent than ever.
- 

**Funding Sources and Applications:**

- Have one committee Member who is the on-going Leader/expert on all S&CC funding sources, recommends which funding to pursue, and leads the application process.
- 

**Conduct an analysis/audit** of why the ICSP project; seemingly:

- 14 years after the ICSP program was launched in Ontario,
  - 10 years after other Ontario municipalities,
  - 3 years after committing to develop an ICSP,
- is at the 'hire a consultant to develop an RFP' status?  
Document the reasons for the low Council priority.

**SCCAC Mandate 'Advice to Council Re.'**

Educational and/or outreach to the public regarding climate change and the work of the Advisory Committee and the Town of Cobourg relating to climate change.

---
