**Subject:** (EXTERNAL SOURCE) Golden Plough Lodge Notice of Motion  
**Date:** Sunday, October 26, 2025 7:38:05 PM

---

Dear Mayor and Council:

This untimely and ill-advised motion is so ridiculous as to be laughable, coming as it does:

1. The day after a county council meeting at which the issue of a warming room is to be supposedly decided with a choice of one of four locations;
2. Months after a search began for those locations with not a peep made about the new Golden Plough Lodge
3. With the sure knowledge that the families of Golden Plough Lodge residents will react less than kindly to sharing their new (over budget, behind schedule) facility with the h unhousted.

The best response to a notice of motion this useless is for no seconder to come forward so that it can sink beneath the waves and we can all forget that it was put forth.

If the mayor wishes to set cats among pigeons at the county, the mayor can do that at the county council table with no need of assistance from town council.

Sincerely,

Bob LeDrew
