

W4 - Are SCCAC Members okay with individual committee members sending them videos and/or articles for their suggested (but strictly voluntary) viewing/reading?

Why:

In the 97 % of days between scheduled meetings, SCCAC Members see sources, articles and information that is Committee-mandate and Work Plan 'Objectives' relevant.

If Some Members would like to share and see such information between meetings, instead of consuming monthly meeting time discussing it, they should not be restricted. Obviously it is voluntary; if a Member doesn't want between-meeting contact, they ignore it, and when not interested in a particular item, they skip that one.

How:

Share SCCAC pertinent items and information with Members between monthly meetings.

When:

When it seems very relevant to a Work Plan 'Objective' or the overall Committee Mandate.

Who:

Members who want to share and receive pertinent information.
